

PRODUCT INTRODUCTION

Spicule 4G · PDRN · Tranexamic Acid · Ceramide | At-Home Skin Booster

The painful, expensive in-clinic treatment — now an at-home elixir. Premium actives delivered straight into your skin's deeper layers.

Microscopic micro-needles — **4th-generation Spicules** invisible to the naked eye — open precise channels in the skin, allowing **PDRN (Salmon DNA)** and **Tranexamic Acid** to be delivered directly into the dermis.

Pigmentation fades, the skin remodels from within — completing LUBYLAB's signature premium skin booster.

4G**Spicule**

Marine micro-needles

PDRN**Salmon DNA**

Recovery + Elasticity

MTS**3-Step System**

Open · Fill · Renew

1. Core Mechanism — At-Home MTS System

Apply on skin. A 3-step MTS (Micro-Needle Therapy System) that opens, fills and renews — without inflammation or downtime.

- **STEP 1 — Open the Path:** Hydrolyzed marine spicules (**4th-generation**) extracted from the ocean create micro-channels on the skin without damaging the surface, removing dead keratin and normalizing the skin renewal cycle.
- **STEP 2 — Fill the Path:** Following the micro-channels created by the spicules, premium actives penetrate **100%** deep into the skin without obstruction.
- **STEP 3 — Regenerate / Recover:** Micro-stimulation triggers self-repair while boosting **collagen synthesis** — regenerating firm, elastic skin from within.

2. "Skin Booster" Active Trio — Formula on Skin

Three precision-paired ingredient combos that lift, brighten and protect — delivered through every micro-channel.

- **Sodium DNA (PDRN) + Collagen — Lift & Elasticity:** PDRN and Collagen work together to plump and remodel sagging contours from within.
- **Tranexamic Acid + Niacinamide — Brightening:** Targets melasma, freckles and uneven tone — fading **pigmentation** while evening overall skin clarity.
- **Ceramide + Panthenol + Allantoin — 3-Layer Barrier:** A reinforced barrier-care trio that **calms, hydrates and locks** the skin's protective layer.

SPICULE 4G · PDRN · TRANEXAMIC · CERAMIDE

Premium at-home skin booster by LUBYLAB ELIXIR.
